EXPERIENCE

Mesh | Senior Product Designer

may 2026 - aug 2026 | Remote

Designed the sequenced onboarding flow for first-time users converting cash into crypto, covering account creation, KYC identity verification, manual bank account linking, and currency-conversion mechanics, then extended the framework to support crypto-to-cash.

Kajabi | Senior Product Designer

jan 2024 - may 2026 | Remote

Shipped design across five concurrent surfaces of Kajabi's payments platform including onboarding, payouts, integrations, analytics, and dashboard redesign, coordinating with product and engineering to drive Kajabi Payments adoption from 0% to 53% of eligible customers post-launch.

Shipped the 0→1 Kajabi's affiliate platform, spanning affiliate management, commissions, payouts, and reporting; generated \$347K+ in commissions and \$4.3M in GMV since launch.

Redesigned the payment analytics dashboard and evolved it into a platform-wide analytics framework by creating reusable, systematized UI patterns adopted across the app.

Used AI-assisted prototyping and code-based experimentation to rapidly explore interaction models and validate product concepts.

Kajabi | Product Designer

sep 2020 - jan 2024 | Remote

Redesigned Kajabi's website-building experience through a human-centered design process, identifying pain points and translating findings into a more intuitive onboarding flow that increased DAU by 4.54%.

Bloomberg | Product Designer (CMU Capstone)

jan 2020 - aug 2020 | New York, NY

Led the team in executing high-quality design work using low and high-fidelity mockups, user flows, and cross-platform interactive prototypes while providing design mentorship to teammates.

Established and implemented a coherent design system used throughout the product ecosystem in the forms of a high-fidelity product prototype, a project website, and a research process book.
